

Bloodstock & Equine

DUAL's bloodstock and equine insurance provides specialist coverage for the breeding, racing and sport horse sectors.

Our strength lies not just in our equine knowledge and experience, but in our individual and team passion for this highly niche area.

Over the years, we've built a strong global network of both agents and equine experts.

It means we have access to some of the best professionals in equine veterinary medicine, wherever we insure horses in the world.

It also means we can tailor our service to help meet your clients' specific needs.

We believe this specialist class of business warrants a special class of service.

Key features
